-

EDUCATION

Krannert School of Management, Purdue University (GPA 4.0)	West Lafayette, Indiana
Ph. D. (expected) Focus on Finance Research	2008
University of Wisconsin-Madison	Madison, Wisconsin
Master of Science (Chemical Engineering)	2003
University of Science and Technology of China	Hefei, China
Bachelor of Science (Applied Chemistry)	1999

WORKING EXPERIENCE

Junior Engineer , designing reactor process dynamics for quantum wells structure Lumei Optoelectronics Corp.	2004 El Monte, California
--	------------------------------

- Designed chemical reaction procedure of quantum well structure for LED application
- Optimized reactor growth conditions in Metalorganic Vapor Phase Epitaxy system

RESEARCH EXPERIENCE

Impact of ownership and control on returns to acquirers

- Found a significant higher cumulative abnormal return for acquirers with higher control ownership concentration

Stock return seasonality and predictability

- Found a significant predictability of April excess return on the following 11-month excess cumulative return

Relationship between related party transactions and firm value: a cross-country analysis

- Found a negative correlation between the related party transactions and Tobin's Q in countries with weak legal protection
