If anybody would like access to the online lectures, I have created a site for that, and it is separate from the Online Course. This site ONLY contains the online lectures. This is not meant to make it easy for you to skip class—it is just a resource for you to use if you are sick and miss class or if you want to hear the material presented a second time to refresh your memory. Remember that class participation points are given throughout the semester and are worth 5% of your grade. If you skip class, you'll miss out on the class participation points, too. We also do a lot of hands-on activities and group work in class that reinforce the concepts. You don't want to miss those.

Here is what you need to do to get access to the online lectures:

To access the course go to https://blackboard.purdue.edu/webct/entryPage.dowebct

Click on "West Lafayette Open Campus"

(If you have previously used the Blackboard open campus for an online class you may use your previous account.) Click on "create account"
Follow the steps to create your account, be sure to write down your username and password somewhere so that you don't forget it. Log out and go back to the entry page https://blackboard.purdue.edu/webct/entryPage.dowebct

Click on "West Lafayette Open Campus"

Click on "course list"

Click on the "Cont. Education" link

Scroll down and click on "STAT"

Click on "Uncategorized"

Click on the little green arrow to the left of "STAT 301" Click on the little man with a + to the right of "STAT 301 - Elementary Statistical Methods - Spring 2010 - E Gundlach" (Yes, I realize it's not Spring 2010 anymore, but the lectures are still up to date.)

Enter the username and log in information that you created above.

Click "Register" You will now be able to go back to the entry page: https://blackboard.purdue.edu/webct/entryPage.dowebct

Click on "West Lafayette Open Campus."

Click on "log in" and the course will appear on your "My Blackboard."
