Please present solution to each problem in order, including all relevant SAS codes, graphs and tables, which must be easily readable and appropriately labeled. You are limited to a maximum of 3 pages per problem (you can request an exception). Any graph or figure that is turned in without comments or spans across more than one page will be ignored. You should use a word processor or editor (e.g., Word) to edit SAS output.

For this homework, you are not permitted to discuss any problem with anyone, particularly any other students, until all students have completed this homework.
