Faculty Positions in Statistical Genetics/Genomics/Computational Biology

The Departments of Biostatistics and Genetics at The University of North Carolina at Chapel Hill are seeking applications for multiple tenure-track or tenured positions in statistical genetics/genomics/computational biology, starting in the fall of 2017. Primary appointments will be in the Department of Biostatistics in the Gillings School of Global Public Health, with one of the appointments being joint in the Department of Genetics in the School of Medicine. Appointments may be at the Assistant, Associate or Full Professor level, depending on qualifications. At least one position will be at the Assistant Professor rank. A doctoral degree in Biostatistics, Statistics or equivalent is required. Applicants should have broad research and teaching interests, the potential to direct PhD-level research, and the ability to engage in collaborative research with other faculty members at the University. The successful candidate will join a vibrant group of researchers in Biostatistics, Genetics and elsewhere at UNC. The University of North Carolina is among the nation’s top public research universities, with dynamic programs in biostatistics, genetics, genomics, bioinformatics, biology, epidemiology, medicine, pharmacogenomics, statistics, and toxicology. In addition, UNC has numerous externally funded projects that provide an excellent environment for interdisciplinary research. Review of applications will start in December. The positions will remain open until filled.

To apply, use the electronic submission website at http://unc.peopleadmin.com/postings/105847 and upload PDF versions of your CV, cover letter, and research and teaching statements. Candidates must also arrange for four letters of recommendation to arrive via email at bennett@bios.unc.edu addressed to:
