Shortlisted candidates will be required to attend for interview and give a presentation

**Closes:** 6 March 2017

**Job Ref:** 56625

**Location:** Birmingham main campus; Jinan University, Guangzhou, China

In a major strategic initiative, the University of Birmingham in collaboration with Jinan University, Guangzhou, China, has set up a Joint Institute for Teaching and Research, located in the Jinan University south campus. The Institute is launching undergraduate degree programmes in Mathematics commencing in September 2017 to be taught in Guangzhou.

We are looking for outstanding Lecturers/ Senior Lecturers to develop and deliver Mathematics modules that form part of these programmes as well as contribute to the School in general. This
initiative will result in a significant expansion to the School of Mathematics. It is envisaged that the roles will involve several postings to Guangzhou per year, each of duration around one month or longer.

Applications are invited from outstanding candidates who are interested in help to shape the new programmes, and contribute to the collaboration. The candidates are expected to contribute substantially to maintaining and enhancing the School of Mathematics’ high standards in teaching, and in research for research focussed posts. We are interested to hear from candidates with research or teaching focus in areas coinciding with areas currently taught by the School. For one post preference will be given to candidates in Statistics or Mathematical Finance. Candidates should hold a PhD (or equivalent) in Mathematics or a related subject and have a commitment to high-quality teaching in Mathematics to a broad range of students.

The School of Mathematics is ranked ninth in the Guardian University Guide 2017, scoring a 90% overall student satisfaction rate in the 2016 NSS. In REF 2014 the School was ranked sixth overall and third in the Russell Group for its percentage of 3* and 4* outputs. The School of Mathematics currently has over 60 academic and research staff who collaborate widely both internally and externally.

In recognition of its commitment to promoting women in science the School of Mathematics holds a Bronze Athena SWAN award.

These posts are available from 1 May 2017, or as soon as possible thereafter.

**Further details:**

The University of Birmingham is an equal opportunities employer and welcomes applications from all sections of the community.
