London, UK

Statistician, Assessment

Milton Keynes

£50,000 pa

ICAEW is a world leader of the accountancy and finance profession.

Learning & Professional Development (LPD) is responsible for promoting and delivering ICAEW’s premier branded ACA qualification to prospective accountants working in private practice, financial services, business and industry, and not-for-profit organisations.

We also develop learning programmes for members and non-members, designed to enhance their careers and benefit the profession.

An excellent opportunity has arisen for a Statistician to design, develop and implement processes for academic measurement which will ensure ICAEW retains its robust and reliable assessment system. You will provide advice and support to internal stakeholders in respect of high stakes assessment design and quality assurance, working with staff at all levels. You will also play a key role in ensuring that exam production and results analysis are valid and secure positive outcomes for all ICAEW learners.

As the successful candidate you will have an academic or commercial background in statistical theory in an educational context. You will be able to demonstrate strong experience of contributing to the design of advanced statistics models which provide valid and reliable data and engaging with layman stakeholders at all levels in a way which builds trust and confidence in your and your department’s abilities. Advanced competence in Excel and statistical programs is essential. A masters or PhD in statistics or similar is desirable.

In return we offer an innovative and forward thinking working culture with good work-life balance and flexible benefits package.

To apply for the role, please send your CV and covering letter to hrapplications@icaew.com marked for the attention of Chris Fox, Senior HR Officer.

Closing date: 15 April
