The University of Wisconsin-Madison Department of Statistics invites applications for two or more visiting assistant professorships beginning in the 2017-18 academic year.

Degree and area of specialization: PhD degree in Statistics or closely related quantitative field.

Type of relevant work experience: Prior classroom teaching experience is desirable although not required. Candidates should have excellent interpersonal, teamwork, written and oral communication skills.

Principal duties: The candidate will teach 3-4 courses per year (1-2 per semester). Courses may include introductory statistics, mathematical statistics, other elementary, intermediate, or advanced level courses offered by the department. Teaching duties include preparing course materials, holding regular office hours, grading exams or homework assignments, supervising teaching assistants, and possibly leading course coordination.

Applications should be sent to:

Via USPS:
Department of Statistics
