SAS Programmer, Data Management and Statistics team | Medpace

Stirling, Scotland

Medpace is a global, full-service Clinical Research Organization (CRO) specializing in a multitude of therapeutic areas. Our headquarters are located in Cincinnati, Ohio, USA and we are active in over 45 countries across the globe. We continue to steadily grow and are looking to add to our team!

Our European activities are growing rapidly, and we are currently seeking a full-time, office-based SAS Programmer to join our Data Management and Statistics team. This position will work on a team to accomplish tasks and projects that are instrumental to the company’s success. If you want an exciting career where you use your previous expertise and can develop and grow your career even further, then this is the opportunity for you.

DESCRIPTION OF JOB DUTIES

Assist in the setup, validation, and maintenance of mapped databases, edit check programming, and integration of external data with associated edit checks.
Coordinate communication with Data Manager, Biostatistician, and/or external database providers regarding database specifications and data transfers.

QUALIFICATIONS/REQUIREMENTS

Bachelor’s degree;
Understanding of the software development lifecycle;
Familiarity developing with SAS and Adequate SAS programming skills.

WHY MEDPACE?

At Medpace, you will find work that is both challenging and rewarding. At Medpace, you will be given the tools and training to succeed. At Medpace, you will be rewarded for strong performance and provided opportunities to grow professionally.

WHAT TO EXPECT NEXT

We look forward to receiving your application. A member of our recruitment team will review your qualifications. If interested, you will be contacted for an interview.
