UNIVERSITY OF THE SCIENCES

ASSISTANT PROFESSOR OF STATISTICS/TENURE-TRACK
Job Description Summary

Statistics Position at the University of the Sciences
Tenure Track, begins August 15, 2016

The Department of Mathematics, Physics, and Statistics at the University of the Sciences (USciences) invites applications for a tenure-track Assistant Professor position in Statistics starting Fall 2016. Qualified candidates may be considered for higher ranks.

Required Qualification Summary

A Ph.D. in statistics, biostatistics, or related area is required by the starting date. Applicants must demonstrate a commitment to excellence in teaching and mentoring of students and strong research ability. Command of written and spoken English is required.

The finalist will be required to successfully pass a background check.

Essential Duties

Duties will include teaching undergraduate and graduate courses in biostatistics, as well as serving as a statistical consultant for BS, MS, Ph.D. and other graduate degree candidates.

The Department of Mathematics, Physics and Statistics currently has 16 full time faculty with diverse research interests in all three Department disciplines. The Department currently offers an undergraduate program in physics with 6 tracks. The Department has a good track record of excellence in teaching and research and will provide a friendly and supportive environment to the new faculty. More about the department can be found at our website: http://www.usciences.edu/mps.

USciences is a unique, private health-science university with an enrollment of 2,800 undergraduate and graduate students, with programs in the natural sciences, pharmacy, and other health related areas. Besides working with mathematics, physics and statistics colleagues, the new faculty will have an opportunity to collaborate with other USciences faculty with a diverse expertise and interests including biology, bioinformatics, pharmaceutical and health sciences. The successful candidate will also have access to major pharmaceutical databases through the Philadelphia College of Pharmacy. Computing facilities available at USciences are comparable to those found at much larger research institutions. Consult our website at: http://www.usciences.edu for additional information.
Application Instructions
To apply, please submit a letter of application, a curriculum vitae, a description of commitment to excellence in teaching and undergraduate research, a brief description of planned scholarly activities, and three letters of reference. Review of applications begins April 1, 2016 and will continue until the position is filled.
