Postdoctoral Fellowship

University of Pennsylvania

(PMID: 27775954)

A postdoctoral fellowship (up to 2 years) is available under the direction of Dr. Dylan Small and Dr. Sean Hennessy at the University of Pennsylvania. The fellow will contribute to development of the novel trend-in-trend research design (PMID: 27775954) and work on other projects within the broad purview of causal inference methods for pharmacoepidemiology.

Requirements for the position include: a proven record of self-motivated research and a Ph.D. in biostatistics, statistics or a related field.

Start date and term are negotiable. Highly motivated applicants, of any nationality, are encouraged to email a statement of research interests, CV and contact details for three references to Dylan Small at dsmall@wharton.upenn.edu. Informal inquiries are also welcomed.
