Applications are invited for the above posts, to start in September 2017 or at a mutually agreed alternative date. We are looking for mathematical scientists of outstanding ability and/or potential, who are seeking a friendly, supportive and collegial environment in which to develop as world-class researchers and teachers.

These appointments are part of a significant initiative, specifically aimed at the interface between applied mathematics, statistics and data science. There is significant activity within the University employing statistical tools (including in healthcare and biomedical research) and applicants with an appetite for interdisciplinary research will be especially welcome.

You should have research experience commensurate with their career stage (with allowance made for career breaks) in mathematical statistics or at the interface between applied mathematics and statistics/data science, and a genuine commitment to, and enthusiasm for, teaching and knowledge transfer.

The School is committed to promoting equality and diversity, including the Athena SWAN charter for promoting women’s careers in STEMM subjects (science, technology, engineering, mathematics and medicine) in higher education. The School holds a Bronze Award for their commitment to the
representation of women in the workplace and we particularly welcome applications from women for this post. Appointment will always be made on merit. For further information, please visit: http://www.maths.manchester.ac.uk/about-us/athena-swan/

Please note that we are unable to respond to enquiries, accept CV’s or applications from Recruitment Agencies.
