University of California, Los Angeles
Department of Medicine Statistics Core

The primary objective of DOMStat is to provide study design and statistical analysis collaboration to investigators in the Department of Medicine. DOMStat offers faculty and staff level statistical collaboration for grant proposals, data analysis, manuscript preparation, and other research activities requiring statistical input.

Statistician, Data Analyst - Westwood

Job Duties

Individual to provide data base construction, data management and statistical analysis for the UCLA Department of Medicine Statistics Core. The position will be located in the Division of General Internal Medicine & Health Services Research. Primary job duties include statistical programming, collaborating on data management, data quality control, designing study databases, and conducting statistical analyses. Work with co-investigators to tailor analyses for their individual manuscripts. Summarization of results for peer-review submission. Master's in biostatistics, statistics or related field. Experience using statistical software (particularly SAS and R) for data management, analysis, and visualization required.

Job Qualifications

Knowledge of statistics. Knowledge of study of design. Skill in statistical software applications, notably SAS and R. Ability to conceptualize desired tables and graphs and create them from raw data. Ability to write manuscripts for scientific peer-review journals. Ability to recognize and use statistical and medical terminology appropriately. Ability to summarize results of statistical analyses for medical collaborators and for peer-reviewed publication. Ability to use standard software, such as Microsoft Word, PowerPoint and Excel. Skill in editing for spelling, punctuation and grammar. Ability to select and pass on relevant information to co-investigators. Knowledge of basic computer hardware. Skill in speaking clearly and distinctively using appropriate vocabulary and grammar to obtain and convey information within and outside the university. Ability to perform duties and task independently with minimal supervisor. Demonstrated ability to establish and maintain cooperative working relationships with other staff members and faculty.
