Senior Statistician

Witney, England

Abbott Diabetes Care

Abbott is a global, broad-based health care company devoted to the discovery, development, manufacture and marketing of pharmaceuticals and medical products.

Oxfordshire, UK

Salary to c.£55,000

Abbott is a global healthcare company devoted to improving life through the development of products and technologies that span the breadth of healthcare. With a portfolio of leading, science-based offerings in diagnostics, medical devices, nutritionals and branded generic pharmaceuticals, Abbott serves people in more than 150 countries and employs approximately 90,000 people.

A position is available for a Senior Statistician within the R&D team in the area of diabetes. Abbott Diabetes Care designs, develops and manufactures leading-edge glucose monitoring systems and test strips for use in both home and hospital settings.

The opportunity is based in our purpose-built facility in Witney, West Oxfordshire. Your varied role will be to provide statistical analysis support to assist in the development and improvement of products including laboratory and clinical trials.

Specific duties will include:

- Working with senior team members to analyse data and review past results to improve products and processes
- Clinical study analysis, including writing and reviewing reports
- As a Senior Statistician, you will complete data analysis and reporting activities, and highlight relevant issues.

The role will involve collaborating with different people within the department. You will need excellent written and verbal communication skills and team-working skills, with the ability to communicate results to both technical and non-technical colleagues, in addition to your detailed knowledge of statistical methods and data analysis.

You must also have an organised approach to your work, with excellent attention to detail.

You are likely to have a BSc (or equivalent) in Statistics or Mathematics, preference will be given to candidates with some industry experience and/or some working knowledge of SAS.

These requirements are essential, so unfortunately we are not able to consider any applicants who do not fulfil the above criteria.
In addition to a competitive salary of approximately £55,000, Abbott offers a highly attractive benefits package which includes a defined-contribution pension scheme, a share ownership scheme, private healthcare, life assurance, and a flexible benefits scheme which you can tailor to your own requirements.
