Company: Department of Statistics, University of Pittsburgh, Pittsburgh, PA 15260

Company Information: Founded in 1787, the University of Pittsburgh is one of the oldest institutions of higher education in the United States. Pitt is a member of the Association of American Universities (AAU), which comprises 62 preeminent doctorate-granting research institutions in North America. The University is located in the Oakland area of Pittsburgh, a short distance from Pittsburgh's vibrant downtown. Home to prestigious museums, world-class hospitals and universities and international cuisine, Oakland is considered the cultural, academic and medical center of Pittsburgh.

Position Title: Research Assistant Professor

Duties and Responsibilities: Pending budgetary approval, this Research Assistant Professor position starts September 1, 2016. Duties are to teach service, undergraduate, and masters level statistics courses, including statistical consulting and also conduct research in statistical methodology and its applications. The teaching load will be equivalent to two courses per semester. This is a full-time (academic year) position with an initial term of two years, with longer terms after that.

Position Qualifications: A PhD in Statistics or a related field, demonstrated excellence in teaching and in statistical research and its applications.

Salary Range: Competitive.

Benefits: The University of Pittsburgh is an equal opportunity/affirmative action employer. The university is dedicated to building a diverse faculty and staff and strongly encourages applications from women, minorities, individuals with disabilities and veterans. The Department of Statistics is interested in candidates who can contribute to the diversity of the academic community through their research, teaching and/or service.
