Data Integrity

Wolverhampton, GB

**Jaguar Land Rover**

Our commitment to sourcing only the highest quality products for our vehicles has taken us all over the world. Join us, and it will be you coordinating a supplier base of thousands, ensuring the right part arrives at our plants at precisely the right time.

Every minute of every day, thousands of parts and materials from all over the world are shipped and delivered to our plants, ready to be utilised on our production lines within hours. At the same time, hundreds of customers from across the globe are handed the keys to their newly transported vehicles. A feat like this doesn’t just happen. Behind this momentous undertaking are our Material Planning & Logistics (MP&L) team, coordinating on a massive scale to ensure our vehicles continue to roll smoothly off the production lines and into the hands of the customers awaiting them.

The Data Integrity Analyst will report in to the Material Planning and Logistics (MP&L) Scheduling and Supply Chain manager. You’ll be involved with 2 main areas of responsibility:

1. **Inventory Accuracy** – Inventory reporting within strict Financial Manual (FM) guidelines in order to satisfy internal and external auditors and to maintain system integrity. The role includes the maintenance of parts on our scheduling systems through a Perpetual Inventory (PI) counting and reconciliation. You will be expected to investigate out of tolerance system discrepancies and do on-going stock accuracy maintenance.

2. **Engineering Change Control** – Manage part number changes across both current engine (running change) and new model year introduction points. You will be responsible for the execution of smooth engineering change management processes, considering the impact on quality and costs (obsolescence)

**WHAT YOU’LL NEED**

In your role as Data Integrity Analyst you’ll have an understanding of either engineering change control or perpetual inventory within a high paced manufacturing environment. You’ll have the ability to communicate well at all levels both verbally and in writing, establishing good working relationships. Previous demonstrate experience of drive with a customer focused approach and good organisational skills whilst having the ability to multi task; manage changing priorities whilst maintaining focus alongside being able to manage priorities, identify issues and solutions using your own initiative coupled with a desire to make a difference and achieve results. You’ll be numerate with a good grasp of Microsoft Office applications and be able to demonstrate drive with a customer focussed approach and good organisational skills.
BENEFITS

Bring all this to the home of premium innovation, and you will find the opportunities to further your career with a world-class Production Operations team, a privilege car purchase scheme, membership of a competitive pension plan and performance related bonus scheme. All this and more makes Jaguar Land Rover the perfect place to continue your journey.

**Jaguar Land Rover is committed to equal opportunity for all.**
