Your Role/Responsibility:
The Trading Internship offers you the opportunity to play a substantial role in our day-to-day trading activities. You will have the opportunity to rotate through multiple areas across our trading organization which could include: an electronic trading desk, an exchange floor, a risk management desk, or a quantitative role in a trading group. You may work on the floor or in an electronic trading environment, where you will play a vital role in identifying trading opportunities and communicating with teammates, traders, and risk managers in various products throughout the trading day. In a quantitative role, you will impact your group through dynamic problem solving by working on trading strategy formulation, back-testing, data analysis, prototype application design, and the modeling and pricing of traded financial derivatives.

As an intern, you will be challenged to learn and adapt in a dynamic, visionary team environment. Your impact is immediate and meaningful, supporting trading groups through dynamic problem-solving that stresses collaboration, leadership and integrity.

What you can expect:
Beyond your role in the Trading business unit, CTC's Internship Program provides you insight into our culture and an inward look into what our business is all about. You will participate in two classroom learning experiences including a week-long Basics of Options class, and a series of trading simulations (Mock Trading). You will also attend planned social activities to improve your professional growth and build not only your network with our employees, but also with fellow interns.

- Hands-on experience and exposure to our trading technology
- Impactful role mirroring that of a full-time hire
- Weekly one-on-one meetings with your manager to ensure you are progressing and learning throughout the program
- One-on-one mentorship from a member of our trading or quant team
- Strong emphasis on teamwork and collaboration built through various educational and social activities

What it takes for you to be successful:
- Effective verbal and written communication skills
- Highly motivated, humble, and a collaborative team member
- Strong quantitative and analytical skill set
- Basic programming skills preferred
- Pursuing a BS or MS. All majors and concentrations welcome
- 3.5 GPA preferred

Important requirements to consider regarding your candidacy:
- Your expected graduation is between December 2019-June 2020
- You are legally authorized to work in the U.S.
- You are willing to relocate to Chicago, IL
How to apply:

Please apply on or before October 4, 2018.

https://ctc.recsolu.com/external/requisitions/hGPBi9xWWs1g9ECuF6Nog

Our process:

- Following the application process, you will receive an online assessment to test your critical thinking skills.
- If you pass the online assessment, you will be invited to an on-campus interview or phone interview (if we are not interviewing on your campus).
- Final round Super Day interviews will be held in our Chicago office from Friday, November 2nd to Saturday, November 3rd. You will be contacted shortly after your on-campus or phone interview regarding your candidacy for the final round.

Who we are:

Chicago Trading Company (CTC) is a highly analytical, team oriented derivatives trading firm that employs a dynamic, disciplined approach to trading across a variety of products and strategies. We take decisive action to position ourselves at the forefront of the financial markets.

We actively trade in a broad spectrum of asset classes that include Equities, Interest Rates, and Commodities. We have grown dramatically since our inception in 1995. Recognized as a leading provider of liquidity and pricing on numerous derivatives exchanges globally, we trade more than 20 hours a day, six days a week.

We are an equal opportunity employer and value diversity at our company. We do not discriminate on the basis of race, religion, color, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status.
