Job Title: Assistant Professor in Statistics

Background: Loyola University Chicago, College of Arts and Sciences, Department of Mathematics and Statistics, invites applications for a full-time, tenure-track Assistant Professor position in Statistics, beginning in the fall semester of 2018. For more details about the department, please visit its website at www.luc.edu/stat

Duties and Responsibilities: The position involves teaching undergraduate and graduate courses in the department’s B.S. and M.S. programs, engaging in a productive program of research, and performing service at the department, college, and university levels.

Qualifications: Applicants must have a Ph.D. in Statistics, demonstrated experience in and commitment to quality teaching at the university level, and an active research program in statistics. In addition, preference will be given to candidates whose research program is synergistic with the research of one or more members of the department's applied statistics group.

Special Instructions to Applicants: Applicants must submit a current Curriculum Vitae, teaching statement, research agenda, and a letter of interest outlining their qualifications to www.careers.luc.edu. Additionally, applicants should submit application materials as well as at least three letters of recommendation to http://www.mathjobs.org. At least one of the letters should address teaching qualifications. Applicants may forward additional materials related to teaching and research excellence to:
