SUNY Korea
The State University of New York at Korea

SUNY Korea seeks applicants for a tenure-track faculty position in the areas of statistics, starting spring 2019. SUNY Korea is a global campus of Stony Brook University (SBU) and the State University of New York, offering degree programs from SBU’s College of Engineering and Applied Sciences (CEAS) and College of Business. SUNY Korea is part of the Songdo Global University Campus, which is shared with a number of leading universities worldwide. Songdo is a new town in close proximity to the Incheon International Airport, about 1 hour from Seoul. Korean and foreign high-tech firms have already located in Songdo, and relationships with industry are excellent. SUNY Korea provides its students with an American university experience in Korea with instruction in English. Its student body is international.

Job Description
The faculty member will teach courses each semester (in areas of statistics or applied mathematics), conduct research and participate in department activities at SUNY Korea.

Qualifications
- Experience with American education (having taught in or received at least three or four years of his/her education in American higher education). Fluent English is a must.
- Ph.D. in statistics, mathematics or a related field
- Demonstrated ability to teach undergraduate and graduate students.
- Skilled in cross-cultural communication and enthusiastic about new experiences.

To Apply
Send following electronic inquiries, applications, and nominations to Dr. Myoungshic Jhun (myoungshic.jhun@stonybrook.edu), Professor and Chair, SUNY Korea:
- a cover letter summarizing education, research, teaching, and other experience as it relates to the faculty position
- a curriculum vitae with full contact information
- a teaching statement
- a research statement
- a list of at least three professional references

Candidates will be interviewed by a faculty search committee, either in person or by video conference, prior to any hiring decisions.
