Carnegie Mellon University  
Department of Statistics  
Assistant/Associate Teaching Professor

Applications are invited for the position(s) of Teaching Professor, rank (Assistant or Associate) to be determined. The Department of Statistics, Carnegie Mellon University (www.stat.cmu.edu) is seeking a passionate and effective teacher to contribute to our thriving, modern undergraduate and graduate programs. A successful candidate will be expected to have a strong teaching record, to demonstrate a thoughtful approach to statistical pedagogy, and to engage deeply in the field of Statistics, through research or other means. We welcome applicants from all areas of statistics.

The Department of Statistics at Carnegie Mellon University is world-renowned for its contributions to statistical theory, practice and teaching. We have an active undergraduate program widely recognized for its excellence, with a large number of undergraduate majors and popular joint undergrad programs in statistics and economics, and statistics and machine learning. We also have two successful Master's programs and a thriving Ph.D. program that attracts outstanding students from around the world.

Our faculty members are recognized internationally for their expertise and have garnered many prestigious awards and honors. At the same time, the faculty is firmly dedicated to undergraduate education. The entire faculty, junior and senior, teach courses at all levels. The faculty are accessible and are committed to involving undergraduates in research. The Department augments all these strengths with a friendly, energetic working environment and exceptional computing resources.

**Duties and Responsibilities:** This position emphasizes teaching, student advising, curriculum development, and supervising collaborative research projects. Teaching load is typically two classes per semester, but varies depending on the faculty member’s role in advising and curriculum design. Faculty are also encouraged to engage in research or other activities that contribute to the field or to society at large. This is a faculty position with a long-term career trajectory and substantial opportunities for professional development.

**Position Qualifications:** Ph.D in statistics, biostatistics, machine learning or related area required.

**Application Instructions:** Apply at apply.interfolio.com/37457. Applicants must submit: cover letter, curriculum vitae, statement of teaching, statement of research, and the names and email addresses of 3-5 individuals who have been asked to provide letters of reference.

Carnegie Mellon University is an equal opportunity employer and is committed to increasing the diversity of its community on a range of intellectual and cultural dimensions. Carnegie Mellon welcomes faculty applicants who will contribute to this diversity through their research, teaching and service, including women, members of minority groups, protected veterans, individuals with disabilities, and others who would contribute in different ways.

**Application deadline: December 1, 2016**
