The Data Analyst is responsible for designing, running, collating and reviewing data reports from MRP and associated data management systems within GE Hamble specifically related to sourcing and procurement, resulting in clear metrics and performance data reports that drive both strategic and tactical direction.

Essential Responsibilities:

- Management of Sourcing Data reports
- Creation and continual development of KPI reports,
- Regular communication and supporting with metrics to operational procurement and commodity management
- Analysis and communication of status and trends
- Define, develop and execute reports to demonstrate supplier development metrics adherence, including Spend to Revenue Ratios, Supplier Spend Growth, Risk Mitigation, First Time Yield, Capacity Analysis etc.
- Design of other appropriate reports and templates where required e.g. market trend analysis, compliance assessments.
- Preparation of RFx data in support of sourcing projects
- Alignment of data inputs and outputs with interfacing cross-functional teams
- Creation and maintenance of Exec level reports (as defined)

Qualifications/Requirements:

- Degree qualification or equivalent with experience in a Sourcing or similar role.
- Experience with utilising and creating effective MS Excel spreadsheets; working capability with MSWord, Outlook, Access & PowerPoint
- Experience with MRP (Material Requirement Planning) preferred
- Experience within a manufacturing environment, preferably aerospace
- Proven experience in of data analytics/analysis

Applications from job seekers who require sponsorship to work in the UK are welcome and will be considered alongside all other applications. However, non-EU/EEA candidates may not be appointed to a post if a suitably qualified, experienced and skilled EU/EEA candidate is available to take up the post, as the employing body is unlikely, in these circumstances, to satisfy the
Resident Labour Market Test. For further information please visit the UK Border Agency website
