Tenure-track Positions

The Department of Statistics and OR, Tel Aviv University invites applicants for tenure-track faculty positions. The rank of an appointment will depend on the applicant’s background. Candidates must hold a PhD degree in Statistics, Applied Probability, Operations Research or closely related area and demonstrate very strong research potential. The department encourages persons from all areas of research to apply, but is especially interested in the theory, methodology, and computational aspects related to statistical learning, data science and the analysis of big data.

Successful candidates will have a strong commitment to research and teaching. They are expected to conduct active research, to develop and teach courses at both the undergraduate and graduate level and to supervise PhD and M Sc students. The preferred language of instruction is Hebrew.

Interested candidates should send:

1. Curriculum Vitae
2. List of publications
3. A brief research statement

The materials should be sent by email to Prof. Felix Abramovich, Chair of the Department of Statistics and OR via the Promotion and Tenure Secretary, Ms. Nurit Liberman (nuritl@tauex.tau.ac.il). Informal enquiries can be sent directly to felix@post.tau.ac.il.

Availability of positions is subject to university approval.

* Candidates interested in beginning a tenure track position in October 2018 are requested to submit their application by 15 November 2017.
