Faculty Positions (Tenured/Tenure-track)

Department of Statistical Science, Temple University, Philadelphia, PA

Faculty Position

The Department of Statistical Science at Temple University invites applications to fill multiple positions anticipated to start in Fall 2017. The search is open to all faculty ranks, including tenure-track Assistant/Associate Professor and tenured Associate/Full Professor. The department encourages applications from candidates in any field within statistics or in any cross-disciplinary area where innovative use of statistics is of critical importance. We seek internationally renowned scholars with excellent track records in research, teaching, grant funding and dissertation advising. Candidates are expected to maintain an active and rigorous research program in statistics. A research focus on Statistical Data Science with interdisciplinary applications and collaborations are highly desirable.

Salary is very highly competitive and commensurate with qualifications. The preferred qualifications for the Assistant Professor position include:

- Post-doctoral or previous faculty experience
- Demonstrated teaching effectiveness
- An established record of research through publications and major research grants
- An interest in developing interdisciplinary research collaborations

Candidates are required to hold a Ph. D. in Statistics or related fields. Applications should submit (a) cover letter, (b) full curriculum vita, (c) brief statement of current and future research interests, and (d) evidence of excellence in teaching (i.e., evaluations) and a statement addressing teaching philosophy and experience (e) reference letters. Kindly submit the above items electronically to:

Chair, Faculty Search Committee

Department of Statistical Science

Fox School of Business and Management 1810 N. 13th Street

Philadelphia, PA 19122

stat.recruiting@temple.edu

The department has 17 full-time faculty members, of whom 10 are tenured or tenure-track and 7 are non-tenure track. Many are Fellows of ASA, IMS, and other international societies. Publications by its faculty include articles in top tier academic journals and books through major publishers. Several of its faculty have ongoing research grants from federal agencies. It has a Center for Statistical Analysis which serves as an avenue for university-wide collaboration and as a
means to advance the department’s research, education and training missions, and a center for High-Dimensional Statistics, one of the core research units of the Fox Big Data Institute with the goal of engaging the shared research interests and expertise of the faculty to create an integrated and more vibrant place for research in a field of modern importance. The Department has comprehensive Ph.D. and M.S. programs in Statistics.

The Department of Statistical Science is located in the Fox School of Business and Management, and teaches a full range of service courses supporting undergraduate and graduate business degrees and other programs at Temple. Established in 1918, and with over 8,000 students and 200 faculty, the Fox School is one of the largest and most comprehensive business schools in the region and the nation. With a number of high-caliber researchers joining its faculty, the Fox School’s different programs continue to garner recognition at national and international levels, and have been highly ranked in many current surveys.

Temple University of the Pennsylvania Commonwealth System of Higher Education serves nearly 39,000 students from around the globe, and is one of the three major state-related, research universities in Pennsylvania.

Philadelphia is the fifth largest city in the United States, and is a major cultural center with many attractive dining and other amenities. It has easy international access, and is close to New York and Washington D.C. Housing and living costs in Philadelphia are among the lowest of major US cities. Philadelphia also has a significant presence of information technology, financial services, pharmaceutical companies, and cancer research centers providing opportunities for research and business interactions.

Temple University is an Equal Opportunity/Affirmative Action Employer and specifically invites applications from women and minorities. Additional information is available from the university, college and department website at www.temple.edu
