VISITING ASSISTANT PROFESSOR IN STATISTICS OR PROBABILITY

The Department of Mathematics at Bowdoin College invites applications for a Visiting Assistant Professor in Statistics or Probability, starting Fall 2018. The position is initially for two years, with the possibility of extension to a third year. Preference will be given to applicants who appreciate the rich interplay between applied and theoretical statistics and mathematics.

Bowdoin values and supports a strong commitment to research and a promise of successful scholarly engagement as well as a dedication to teaching excellence in a liberal arts environment. The regular teaching load is two courses per semester. The successful candidate will primarily teach introductory level courses in statistics and mathematics and major-level courses in statistics and probability. A Ph.D. by the time of appointment is preferred.

Bowdoin is committed to broadening the participation of students in STEM fields. Candidates possessing experience with or demonstrated ability to teach or mentor underrepresented students are strongly encouraged to apply, and should address their experience in their cover letter. The College is also building an environment in which students and faculty from across the disciplines can employ digital and computational approaches to enrich their work, and we welcome applicants who can contribute to this effort.

Bowdoin College accepts only electronic submissions. Please visit www.MathJobs.org to submit:
(1) A cover letter. All cover letters must specifically address (a) how an applicant's research and teaching interests will contribute to the department, and (b) information about the applicant’s interests or experiences in promoting inclusion and diversity in the mathematical sciences. (2) A curriculum vitae. (3) A research statement. (4) A teaching statement. (5) At least three letters of recommendation. At least one letter should specifically address teaching.

Review of applications will begin Monday, November 27, 2017, and will continue until the position is filled.

Founded in 1794 on the Maine coast, Bowdoin is one of the oldest and most selective coeducational, residential liberal arts colleges in the country. Bowdoin is located in Brunswick, Maine, a 30 minute drive north of Portland; it is a friendly town of 20,000 inhabitants, and the area is rich with natural beauty and year-round outdoor activities.

Bowdoin’s reputation rests on the excellence of its faculty and students, its intimate size, strong sense of community, commitment to diversity (31.5% students of color, 5% international students and approximately 15% first generation college students), and treasured links with the people, history, and natural beauty of Maine. Bowdoin College complies with applicable provisions of federal and state laws that prohibit unlawful discrimination in employment, admission, or access to its educational or extracurricular programs, activities, or facilities based on race, color, ethnicity, ancestry and national origin, religion, sex, sexual orientation, gender identity and/or expression, age, marital status, place of birth, genetic predisposition, veteran status, or against qualified individuals with physical or mental disabilities on the basis of disability, or any other legally protected statuses.
