Plus 17% employer superannuation. Salary packaging options are available

Relocation assistance provided

Applicants must have ongoing full time work rights

The University of New England (UNE) in Armidale, Australia is a unique university, in the enviable position of boasting an excellent international reputation as well as being a leader in research and academic innovation. We aim to foster a constructive and engaged culture where creative ideas thrive.

The School of Science and Technology at UNE is currently inviting applications from suitably qualified individuals to join our dedicated group of statisticians as either Senior Lecturer or Lecturer in Statistics.

About the role

Statistics at UNE takes a multi-disciplinary form, and is a key part of the Computational Science major in the Bachelor of Science, the Applied Modelling major in the Bachelor of Computer Science, and postgraduate offerings in Applied Statistics and Quantitative Ecology (beginning 2017). The School conducts teaching and research through an exciting range of undergraduate, honours and postgraduate courses and research degrees by dissertation within these disciplines, with this role being an active contributor to this.

Skills & Experience

To be successful you will:

Hold a PhD (or be near completion for Lecturer level) in statistics with a focus on agricultural, biological, computational, ecological or mathematical statistics research; be able to build multi-disciplinary collaborations with researchers in the computational, physical or life sciences, and be able to teach across a broad range of statistics classes, ranging from large first-year service classes to specialised classes delivered in on- and off-campus education modes.
Additional information

Informal enquiries may be directed to either Professor Aron Murphy, Head of School of Science and Technology, phone: (02) 6773 3118 or email: hos-st@une.edu.au or Ms Jackie Reid, Senior Lecturer in Statistics, phone: (02 6773 3584 or email reid3@une.edu.au

For further information about the School visit: www.une.edu.au/about-une/academic-schoos/school-of-science-and-technology

About Armidale

Living in Armidale you will experience the best of both city and rural living. Enjoy a healthy and active lifestyle with access to shopping, gourmet food, top sporting facilities and cultural delights all for a fraction of the price you’d expect to pay in a major city. You can live in the heart of Armidale or experience the tranquillity of the New England on a rural property.

Closing Date: Sunday 15th January 2017
