Xavier University, a Catholic university in the Jesuit tradition, invites applications for a tenure-track Assistant Professor in Statistics, to begin in Fall 2017. Applicants should have a Ph.D. in Statistics, Biostatistics, or in other related areas such as Mathematics, Applied Mathematics, or Actuarial Science (with a significant Statistics component). The applicant’s degree must be completed no later than August 2017.

Qualified candidates interested in contributing to the growth of our programs in Statistics and Actuarial Science are encouraged to apply. Candidates must demonstrate an understanding of and willingness to engage a campus community dedicated to undergraduate liberal arts education. We seek colleagues excited about joining university and departmental efforts to further advance the culture of inquiry within our undergraduate student body. Candidates must be committed to outstanding teaching of both majors and non-majors alike, the development of a sustainable scholarly research program, and service consistent with the mission of Jesuit higher education. A successful candidate will be expected to utilize innovative and effective approaches in the teaching of statistics and to develop activities that encourage students’ participation in research.

A complete application includes a cover letter; curriculum vitae; a statement concerning the candidate’s personal practice of and aspirations for teaching; a statement of research achievements and goals; graduate transcripts; and three letters of recommendation. These items should be submitted online at http://www.mathjobs.org.

To ensure full consideration, all materials must be received by October 20, 2016.

For more information about our department, please visit http://www.xavier.edu/mathematics-department/. Questions about the position may be directed Dena S. Morton, Chair, Department of Mathematics, morton@xavier.edu.

Xavier University has a strong commitment to diversity and seeks a broad spectrum of candidates, including women and minorities.
