Facilities Directorate

Grade 6 (£26,052 to £31,076 p.a.)

Reference:  FDEPL1002

Are you highly customer focused with a pragmatic approach?
Do you have advanced mathematical and IT skills?
Are you articulate with an eye for detail?

You will be responsible for the University’s Estate space management statistical data, where you will analyse and report on the performance of the buildings across our diverse campus. Analysing, interpreting and presenting large quantities of data you will convert this into a presentable format for a variety of audiences to inform decision making.

You will be passionate about delivering statistical data which will play a pivotal role in informing decision making across the University’s Estate. With significant experience of working with large volumes of complex data to produce high quality reports you will have excellent analytical skills with the ability to solve complex problems.
