Statistician
Fareham, United Kingdom

Zurich Insurance

You will be part of a growing and exciting Predictive Analytics Team with UKGI Underwriting, which is responsible for delivering predictive modelling, statistical services and solutions across the business.

Your job will comprise claim cost modelling, geographical modelling, demand modelling, as well as providing R&D services to test and implement new data sources and statistical techniques that can drive and improve our performance.

You will have the opportunity to make an immediate impact on business success and by using predictive modelling, bring the right solutions to the whole organisation.

Main Accountabilities:

- Support the analytical development of UKGI Underwriting teams through data gathering, analysis and modelling under the direction of the Head of Analytics.
- Demonstrate increasing knowledge of statistical techniques and procedures, including trend analysis, profiling and predictive modelling, to be able to provide first class service to external and internal customers.
- Demonstrate increasing knowledge of statistical techniques and procedures, including trend analysis, profiling and predictive modelling, to be able to provide first class service to external and internal customers.
- Provide regular insight and analysis, using multiple data sources.

Your skills and experience:

- Exceptional numerical ability and data manipulation
- Naturally inquisitive with the ability to challenge data
- Previous experience of the insurance/financial industry is not essential
- Understand customer needs and knowledge of insurance business products and services
- Strong presentation and communication skills and ability to engage non-technical audiences
- Experience of deploying different model types
- Knowledge of Emblem and at least one of the following statistics and data manipulation packages (SAS, R, Python) is desirable but not essential

Reward:

In return we are offering an attractive salary plus a generous benefits package including bonus and defined contribution pension scheme. We are committed to continuous improvement and we offer access to a comprehensive range of training and development opportunities.

Further information:

At Zurich we believe that having a culture of inclusion is essential in delivering good results. Attracting, retaining and developing a diverse workforce where employees feel valued, respected and empowered allows people to reach their full potential. As a business this diversity helps us to better reflect and understand our 4 million customers’ needs to allow us to drive better outcomes. As a global organisation, with an increasingly agile workforce, we’re happy to consider flexible working arrangements including part time workers.
