Assistant / Associate / Full Professor in Statistics
- Data Science

The Department of Statistics at the University of Florida invites applications for two open-rank, tenure-track faculty positions affiliated with the UF Informatics Institute to begin August 2018. Successful candidates will have an established research program in statistics with an emphasis on data science and interests in interdisciplinary research contributing to the mission of the UF Informatics Institute. Candidates at the associate or full professor level should have an established record of publication in leading journals and success in obtaining extramural funding. Duties include teaching, research, and service.

A PhD in statistics or a closely related field is required.

The Department is committed to creating an environment that affirms diversity across a variety of dimensions, including ethnicity/race, gender identity and expression. We particularly welcome applicants who can contribute to such an environment through their scholarship, teaching, mentoring, and professional service. The university and greater Gainesville communities enjoy a diversity of cultural events, restaurants, year-round outdoor recreational activity, and social opportunities.

The salary is competitive and commensurate with qualifications and experience and includes a full benefits package.

For full consideration, applications must be submitted online at http://explore.jobs.ufl.edu/cw/en-us/listing/ job number 504918, and must include: (1) a letter summarizing the applicant's qualifications, ongoing research directions, and interests in the Department, (2) a complete curriculum vitae, and (3) teaching/research statement. In addition, names and email address for three references must be provided on the application. An email will be sent automatically to your references, requesting them to upload their letter. Applications will be reviewed beginning November 1, 2018 as received and the position will remain open until filled.
