Tenure track position in Statistics
University of Arkansas, Dept. of Math. Sciences

The University of Arkansas Department of Mathematical Sciences invites applications for one tenure-track Assistant Professor position to begin in August 2017. The position is open to candidates with research interests in any area of statistical applications, theory, or methods. Preference will be given to candidates in areas that match those represented in the department. Examples of such areas include, but are not limited to, Bayesian statistics, spatial processes, state space models, networks and graphical models, nonparametric methods, functional data. Outstanding candidates will be considered for the Lawrence Jesser Toll Jr Endowed Chair in the Mathematical Sciences.

Within the Fulbright College of Arts and Sciences, the department of Mathematical Sciences is developing, jointly with other departments and colleges, an interdisciplinary graduate program in Statistics and Analytics. The opening in the department of Mathematical Sciences, following three successful hires in Statistics in the last three years, is part of an institutional effort to expand the Statistics and Analytics group. Other hires in this general area are expected in other departments and colleges, such as Computer Sciences and Industrial Engineering. An Institute for Advanced Data Analytics has been recently approved.

**Position Qualifications:** Applicants must complete a Ph.D. degree in Statistics or Biostatistics or in a closely related discipline before the starting date for this position.

All application materials should be submitted electronically to: [http://jobs.uark.edu](http://jobs.uark.edu). The application package should include a cover letter, curriculum vitae, a publication list, and brief descriptions of research agenda and teaching philosophy. Applicants should also arrange for four letters of recommendation, at least one of which must address the applicant's teaching experiences and capabilities. All applications received by November 1, 2016 will be given full consideration; later applications will be considered as needed to fill the position.

The University of Arkansas is an equal opportunity, affirmative action institution. The university welcomes applications without regard to age, race,
gender (including pregnancy), national origin, disability, religion, marital or parental status, protected veteran status, military service, genetic information, sexual orientation or gender identity. The university is especially interested in applications from qualified candidates who would contribute to the diversity of all program areas. The University of Arkansas also has a commitment to be responsive to the needs of dual career couples. For additional information, visit the Human Resources website: http://hr.uark.edu. All applicant information is subject to public disclosure under the Arkansas Freedom of Information Act and persons must have proof of legal authority to work in the United States on the first day of employment.
