UES, Inc., an innovative science & technology company located in Dayton, OH, has a position available for a Biostatistician to join our team in support of the Human Effectiveness Directorate at Wright Patterson Air Force Base. The Biostatistician will provide data management, statistical analysis and programming support for clinical and laboratory research. This will involve statistical analysis on data collected from clinical trials and research studies. Primary responsibilities for this position will include:

- Provide statistical support via statistical consultation and data analysis throughout the course of studies
- Preparation of statistical reports for presentations and publications
- Provide statistical and project status updates to research staff to support program goals
- Assist with statistical analysis coordination and provide statistical consulting on an ad hoc basis

**Requirements**

- Bachelor’s Degree in a quantitative discipline (statistics, applied math) or as a minor with a major in biology, chemistry or related field
- 2 + years of experience involving statistical learning, data mining, and software development
- Knowledge of biological / medical science and research
- Ability to effectively communicate foundations in statistical theory and multivariate analysis
- Practical understanding of parallel and distributed computing along with skills in R, Mathlab, Python or similar
- This position is working within a government facility and requires U.S. Citizenship

**Additional Information:**

UES, Inc. is an innovative science and technology company providing customers with superior research and development expertise since its inception in 1973. Our long term success is a direct result of a strong commitment to the success of our employees. Taking time to complete the application is your first step towards joining UES in the pursuit of technological advancement. We look forward to reviewing your application.

UES is firmly committed to Equal Employment Opportunity (EEO) and prohibits employment discrimination for employees and applicants based on age, race, color, pregnancy, gender, gender identity, sexual orientation, national origin, religion, marital status, citizenship, or because he or she is an individual with a disability, protected veteran or other status protected by federal, state and local laws.
