Visitng Position in Statistics or Data Science

- John Carroll University, Cleveland, Ohio

The Department of Mathematics and Computer Science at John Carroll University is seeking applications for a one year visiting faculty position in Statistics or Data Science, to begin August 2018, with a possibility or renewal for a second year. Ph.D. in Statistics, Data Science, Mathematics of related discipline (or imminent completion by that date) is required. Full consideration will be given to applications which are complete by February 23, 2018, although applications will be accepted until the position is filled.

The successful candidate will demonstrate the potential for excellence in the teaching of statistics and/or data science in a liberal arts setting, have the ability to teach both elementary and upper-level statistics courses and will be committed to working closely with students and with faculty from other disciplines. The teaching responsibility involves approximately 12 hours per semester. For more information, please visit http://sites.jcu.edu/math/pages/visiting-position-in-statistics-or-data-science/.

John Carroll University is a private, coeducational, Catholic and Jesuit university of approximately 3200 students providing programs in the liberal arts, sciences and business at the undergraduate level and in selected areas at the master’s level. John Carroll is twenty minutes from downtown Cleveland, the center of an outstanding arts and cultural community. For additional information on the University and the Department, please visit: http://sites.jcu.edu/math.

Applications should be submitted through our listing at mathjobs.org. Applications must include a letter of application, CV, statement on teaching, statement on research, copy of graduate transcripts and three letters of recommendation. John Carroll University is an Affirmative Action, Equal Opportunity Employer. The University is committed to diversity in the workplace and strongly encourages applications from women, minorities, veterans and individuals with disabilities.
