

**Webster West Wins 2015 Mu Sigma Rho
William D. Warde Statistics Education Award**

ASA President David Morganstein presenting the award
to Webster West
at the 2015 JSM Awards Ceremony

This award is named in honor of William Douglas Warde who unexpectedly passed away in August 2010. Bill was a faculty member at Oklahoma State University for forty-two years and was a long-time national officer of Mu Sigma Rho. Bill's energy and enthusiasm for the promotion of our discipline to students was second to none.

This year's recipient is Webster West from North Carolina State University. Professor West was recognized for his record of outstanding achievement in three areas: cutting edge leadership in the application of computing technology to statistics education, sustained excellence in classroom teaching, and innovation in rigorous research into statistical pedagogy. The award was given on Sunday evening in the award ceremony at JSM.
