

## STAT 503 – Fall 2012

### Questionnaire

Please fill out this questionnaire and return by Friday, 8/24 to the instructor.

Note: There are two sides to this questionnaire.

Official name at Purdue:

Full name as it will appear on your homework (please print - with pronunciation if helpful):

Email address (use @purdue.edu if possible):

Major Field of study and specialization (e.g. Biology – General, Biochemistry – Plant Biochemistry):

Degree (e.g., BA, BS, MS, Ph.D., non-degree) and year in the program:

If appropriate, list any degrees you already have, the major, school and date (e.g., BS, Biology, Univ. of IL, 2010)

Are you presently engaged or interested in any research projects that will involve the collection and/or analysis of data? If so, please describe on the back of this sheet.

Do you want to make your project one of the case discussions for the course? This will greatly help you process your project and gain valuable experience of statistical application. If so, please contact the instructor.

Rate your familiarity with the computer program SAS from 0 (never used it) to 5 (expert):

What are your expectations of this course?

What is your favorite color?

Check all that apply, elaborating on the back if you wish:

☐ This course is required for my major.

☐ I have a Purdue computer (PUCC) career account and know my password.

☐ I regularly read email.

☐ I regularly use a web browser and have access to the internet.

☐ I have previously taken a Calculus course. Please include the course number and approximately how long ago it was taken (if not at Purdue, please indicate the university and level). Note: This is a pre-requisite for this course.

☐ I have previously taken a probability course. If checked, please include the course number (if not at Purdue, please indicate the university and level). Note: There is no probability pre-requisite for this course.

☐ I have previous taken a statistics course. If checked, please include the course number (if not at Purdue, please indicate the university and level). Note: There is no statistics pre-requisite for this course.

If there is anything else you want me to know (expectations, problems with registration (clearly indicate if you are not officially registered), anticipated difficulties or absences, medical conditions, etc.), please write this information below.
