To: Levine, Michael <mlevins@purdue.edu>

Hi Dr. Levine,

I wrote this email want to show my gratitude to you for providing us an enjoyable and really useful class. The materials in the book are tough, and some things make me confused, but your explanation could make them really easy to understand. Also, you are being patient to me and explain everything I ask towards the course even though some questions are trivial. You are a good listener too; every time I feel anxiety and sorrow, I stop by your office hour, and you are encouraging me after listening to my complaining, giving me some advices of my future development. I appreciate that!

Thank you so much for what you did, and all in all, you are an excellent professor!

Sincerely

Zhengming Li
