

Assignment 0

An introduction to SAS is available at

<http://www.stat.purdue.edu/~yuzhu/stat514fall05/Lecnot/introsas05.html>

You are required to go through the document carefully and get familiar with some basic SAS statements and procedures. This assignment is expected to be completed before August 30 Tuesday. Since you do not need to hand in anything for this assignment, it is numbered 0. Nevertheless, this assignment is very important for students who have not used SAS before.
